ABOUT THIS PROGRAM/DISCLAIMER

This workout program is an 8-week full body training program designed to specifically target muscle growth and build overall strength and size. The program is structured to be performed three times a week, with each session lasting between 75-90 minutes. Remember to listen to your body, adjust weights and repetitions as needed, and maintain proper form throughout each exercise to optimize the results and minimize the risk of injury.

ZOLLARBILL/Zeeshan Mahmood is not a doctor or registered dietitian. The contents of this document should not be taken as medical advice. The following products are given via Amazon affiliate links. An Amazon affiliate link is a link given to creators such as myself. If you choose to purchase these products, it will support me as I will earn a percentage of the cost you spent at NO EXTRA COST to you. So, if you use any of these affiliate link to buy something, you're really helping me out. But if you're like me and prefer a home gym I understand and the [EQUIPMENT](#) page makes shopping for equipment a lot easier.

KEY TERMS

DB: Dumbbell

BB: Barbell

KB: Kettlebell

BW: Bodyweight

PROGRESSIVE OVERLOAD: Gradual increase of stress upon the body during resistance training. Basically, it means progressively increasing the lifting parameters over time (usually weight and/or reps)

SUPPLEMENTS

L-Arginine

Ashwagandha

CREATINE

Collagen

PROTEIN POWDER

Above are the supplementments that ZollarBill and Discipline Mentality use, note that the purchase of any products are optional. This page is about the equipment that is required for this eight week program. You need access to the equipment shown below or similar. If you want to purchase these items for yourself or for a home gym just click on the desired product. Everything here is the same as what ZollarBill uses in his home gym. I highly recommend using a lifting When doing pull day, specifically back workouts I recommend using lifting straps.

EQUIPMENT

DUMBBELLS

BAR AND PLATES

BENCH

LIFTING BELT

CAGE

CABLES

LIFTING STRAPS

PLYO BOX

DIP BELT

JUMP ROPE

KETTLEBELL

WEIGHT RACK

FAQ's

1. Can beginners follow this workout program?

- While this program is designed for intermediate-level trainees, beginners can use it, by focusing on proper form. However, beginners may benefit more to build a solid foundation of strength and technique.

2. How many days per week should I follow this program?

- This program is designed to be performed three times per week on non-consecutive days. This frequency allows for adequate recovery between sessions and promotes muscle growth.

3. Do I need access to a gym to perform this workout program?

- Yes, this program requires access to basic gym equipment such as barbells, dumbbells, cables, and a squat rack. If you don't have access to a gym, you can purchase the necessary equipment to create a home gym. [Click Here for Equipment](#)

4. How do I progress with this program?

- To progress, do a progressive overload. Pick a rep range like 6-10 for example for bench press start off with being able to do a weight for 6-8 reps and once you're able to get to the tenth rep that's when you can increase the weight.

5. How long do I have to wait to see results?

- Several factors influence the rate of progress, including individual genetics, current fitness level, training intensity, nutrition, and recovery. It's also important to note that muscle gain might not always be visible on the scale, especially if you're simultaneously losing body fat. Remember, building muscle is a gradual process, and the key to long-term success is to stay dedicated, remain consistent, and make fitness a part of your lifestyle.

WARM-UP

Warming up before a workout is essential for both physical and mental preparation. It offers numerous benefits, including increased blood flow, elevated heart rate, improved muscle flexibility, and reduced risk of injuries. The warm-up routine provided incorporates dynamic exercises that target major muscle groups and joints, preparing the body for the full body workout program. The cardiovascular warm-up, joint mobility exercises, upper body activation, and core engagement ensure the body is ready for the demands of the upcoming training sessions. By following this comprehensive warm-up, you can enhance your performance and minimize the risk of injuries.

EXERCISE	SETS	REPS/TIME
LOW INTENSITY CARDIO	N/A	5 MIN
JUMPING JACKS	2	12
ARM CIRCLES	2	12
HIGH KNEES	2	15 SEC
DYNAMIC LEG SWINGS	2	12
PLANK	2	30 SEC
JUMP ROPE	2	15 SEC

EXERCISE SUBSTITUTIONS

Here's a list of exercise substitutions for the workout program. These substitutions can be used if you have specific equipment limitations or want to add variety to your workouts while still targeting the same muscle groups:

Leg Exercises:

1. Barbell Back Squats -> Goblet Squats (using a DB or KB)
2. Barbell Front Squats -> DB Front Squats
3. Deadlifts -> Romanian Deadlifts (with DB or a BB)
4. Dumbbell Lunges -> Reverse Lunges (with a BB or BW)

Chest and Shoulder Exercises:

1. DB Bench Press -> BB Bench Press
2. Incline DB Bench Press -> Incline BB Bench
3. Cable Tricep Extensions -> Overhead DB Tricep Extensions

Back and Arm Exercises:

1. Bent-Over Barbell Rows -> T-Bar Rows or Seated Cable Rows
2. Lat Pulldowns -> Pull-up Negatives
3. Cable Hammer Curls -> Alternating DB Curls

Core Exercises:

1. Hanging Leg Raises -> Hanging Knee Raises

Remember to choose exercise substitutions that target the same muscle groups and provide a similar level of intensity. Also, make sure you maintain proper form and technique for each exercise to prevent injuries and maximize the benefits of your workout.

REST & TRAINING DAYS

Although your body isn't influenced by the days of the week, maintaining a consistent lifting schedule can help ensure you stay on track with your workout program and avoid missing sessions. While the example below outlines one way to organize your training week, it's important to note that the specific arrangement of rest days matters less than completing all the scheduled training sessions by the end of the week. The key is to prioritize regular workouts to achieve your fitness goals effectively.

FULL BODY ROUTINE:

MONDAY: FULL BODY

TUESDAY: REST

WEDNESDAY: FULL BODY

THURSDAY: REST

FRIDAY: FULL BODY

SATURDAY: REST

SUNDAY: REST

*Try to place at least one rest day between full body sessions
